

1 **WHAT IS CLAIMED IS:**

2 1. A keyboard cover comprising:

3 a rectangular transparent film made of a soft material and having atop
4 side, a bottom side, two long sides and two short sides;

5 two first reinforcing strips formed at the bottom side and respectively at
6 the two long sides of the film;

7 two second reinforcing strips formed at the bottom side and respectively
8 at the two short sides of the film; and

9 two elastic strips respectively formed beneath the first reinforcing strips,
10 each elastic strip having two ends respectively bent upwards and inwards and
11 fastened at the corresponding corners of the film.

12 2. The keyboard cover as claimed in claim 1, wherein the elastic strips
13 are parallel to each other.

14 3. The keyboard cover as claimed in claim 1, wherein the elastic strips
15 have a thickness greater than that of the reinforcing strips.

16 4. The keyboard cover as claimed in claim 3, wherein the elastic strips
17 are combined with the first reinforcing strips by means of heat pressing.
